PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of professional experience (since 2021) designing, developing and deploying web, backend, desktop and mobile applications. Strong backend focus using Python, Node.js and SQL, with extensive experience building RESTful APIs, processing data using JSON and XML, and deploying production systems on Linux servers hosted on AWS EC2. Background includes ERP customization (Odoo), inventory and sales systems, academic platforms, e-commerce applications, media processing and graphics-based software.

TECHNICAL SKILLS

Programming Languages:

Python, JavaScript (ES6+), TypeScript, PHP, Java, C++, C#, Kotlin

Frontend Technologies:

React, HTML5, CSS3, TailwindCSS, Bootstrap, Vite

Backend & Frameworks:

Node.js, NestJS, Express, Prisma ORM, Python (Odoo modules), REST APIs

Databases & Data Formats:

MySQL, PostgreSQL, MongoDB, SQLite, SQL Server

JSON, XML

Cloud, DevOps & Systems:

AWS EC2, AWS S3, Linux (Ubuntu), Docker, Nginx, PM2

Git, GitHub, CI/CD basics

Other Tools & Concepts:

Authentication and Authorization, CRUD Systems, MVC Architecture, API Integration, Technical Documentation, Basic UX

PROFESSIONAL EXPERIENCE

Full Stack Developer & Technology Consultant – ITAdmin

Jul 2023 – Nov 2025

- Developed custom ERP modules using Python for Odoo, extending invoicing, payroll and administrative workflows.
- Built and maintained backend services and RESTful APIs using Python and Node.js, exchanging data via JSON and XML.
- Developed React-based internal web applications connected to SQL databases.
- Designed database schemas and optimized queries using MySQL and PostgreSQL.
- Deployed and maintained production environments on Linux servers hosted on AWS EC2.
- Configured Nginx, PM2, SSL certificates and domain/DNS settings.
- Provided advanced technical support, debugging and infrastructure troubleshooting.
- Collaborated directly with clients to translate business requirements into scalable technical solutions.

INDEPENDENT SOFTWARE DEVELOPMENT EXPERIENCE

2021 – Present

- Designed and developed inventory, sales and reservation systems using C++, C#, Python and SQL/NoSQL databases.
- Built e-commerce-style web applications using PHP and SQL, implementing product catalogs, shopping carts, order workflows and authentication systems.
- Developed blogs and content management systems using Java, Maven, XAMPP and MySQL, deployed on virtual machines hosted on AWS EC2 and Azure.
- Created mobile applications using Kotlin for service-based businesses, integrating backend services and databases.
- Developed multiple React-based web applications, including social-platform-style interfaces, review and rating systems, business dashboards and admin panels.
- Designed and deployed a full-stack academic evaluation system using React, Node.js, NestJS, Prisma ORM and MySQL, deployed to AWS EC2 on Linux.
- Built production websites for local businesses such as restaurants and cafés, optimized for performance, SEO and mobile usability.
- Gained experience in graphics programming and game development using C#, OpenGL and web-based rendering technologies.
- Implemented database schemas, queries and performance optimizations using SQL.
- Deployed and maintained production environments on Linux servers, configuring Nginx, PM2 and SSL certificates.

EDUCATION

Bachelor's Degree in Multimedia and Digital Animation
Universidad Autónoma de Nuevo León (UANL)
2020 – 2024

LANGUAGES

Spanish: Native
English: Intermediate to Advanced (technical documentation, reading and basic meetings)

CORE KEYWORDS

Full Stack Developer, Backend Developer, Software Engineer, Web Developer, REST APIs, SQL, NoSQL, Cloud Computing, Linux, AWS, CI/CD, ERP Systems, Odoo.
